RE-COVERY MASH

REHYDRATION MASH

RE-COVERY Mash supports optimum rehydration and recovery post performance, travelling and competing with the inclusion of electrolytes, vitamin E and live yeast. The high fibre, banana flavoured mash can be fed strategically as and when needed to entice the fussiest of drinkers and feeders.

RE-COVERY Mash is suitable for:

- Horses & ponies post-competition performance to support optimum recovery
- Horse & ponies following intensive training sessions
- Horses & ponies that are sick or convalescing
- Horse & ponies in need of increasing thirst response

Features & Benefits:

- Low Starch, low sugar formulation based on "Super-Fibres" to support hindgut health
- Feed alongside any diet – not fully fortified so won't cause nutritional imbalance
- Live yeast to support gut flora and stabilise the pH of the gut
- Vitamin E to support normal muscle function & recovery
- Quick Soak in warm water within 5 - 10 mins
- Encapsulated banana flavour to entice the fussiest of drinkers & feeders

This product is designed to be soaked at a ratio of 1 part feed: 2 parts water or to the desired consistency i.e. add 1 litre of water to 500g of Re-Covery Mash.

Composition (List of Ingredients)

Oatfeed, Lucerne Pellets, Dried Sugar Beet Pulp, Soya Hulls (*GM Soya*), Barley Flakes, Molasses, Full Fat Linseed, Soya Oil (*GM Soya*), Vitamin E, Sodium Chloride, Soya Bean Meal (*GM Soya*), Banana Flavour

Zootechnical Additives (Yeast)

4b1710 *Saccharomyces cerevisiae* MUCL 39885 (Vistacell). Number of Colony Forming Units (CFU): Minimum 2.5×10^{10} CFU/KG

Nutritional Information

Crude Fibre	19.0%
Crude Protein	9.5%
Lysine	0.48%
Methionine	0.16%
Crude Oil	6.0%
Crude Ash	6.5%
Starch	10.0%
Sugar	6.0%
Digestible Energy	11.5 MJ/kg

Vitamins

Vitamin E 500 iu/kg

Minerals

Calcium	0.99%
Phosphorus	0.19%
Magnesium	0.15%
Sodium	0.45%
Chloride	0.86%
Potassium	0.86%
Iron	188 mg/kg

Feeding Rate

RE-COVERY Mash can be fed at **100g per 100kg** of bodyweight or up to a maximum of 3kg per day as part of an electrolyte replenishment programme.

We always recommend that advice should be sought when determining optimum electrolyte supplementation programmes.
